A Brighter Tomorrow

TRAVEL RESPONSIBLY

Meaningful Travel Creates a Brighter Tomorrow.

RESPECT THE PLACE. RESPECT THE PEOPLE.
LEAVE A POSITIVE FOOTPRINT.

At Hammock Expeditions, LLC, we believe travel has the power to change lives — and to make a positive difference in the places we visit. We are committed to responsible tourism and **sustainable** practices, and we ask every traveler to join us in respecting people, cultures and environments so these incredible destinations can be enjoyed for generations to come.

SMALL ACTIONS. A BIGGER IMPACT.

PROTECT THE PLACES WE VISIT

Help preserve the natural and historic treasures that make each destination special.

- Respect wildlife and natural habitats
- Stay on marked trails and follow local rules
- Do not remove or damage plants, animals or artifacts
- Leave places as you found them — or better

Explore Today. Protect Tomorrow.

RESPECT LOCAL COMMUNITIES

We are guests in someone's home. Travel gives us the opportunity to learn from and with local people.

- Be open, curious and respectful
- Learn basic local customs and follow cultural norms
- Dress appropriately when required
- Ask before taking photos of people
- Be mindful of language, behavior and noise

Different People. Richer Perspectives.

SUPPORT LOCAL

Tourism can create meaningful opportunities for local people and communities.

- Choose local guides, businesses, restaurants and experiences whenever possible
- Support locally produced goods and crafts
- Be fair and respectful when purchasing
- Understand the value your visit brings to the local economy

Stronger Communities. Brighter Futures.

REDUCE YOUR FOOTPRINT

Small choices add up when we all do our part to travel more sustainably.

- Bring a reusable water bottle (where appropriate)
- Avoid unnecessary single-use plastics
- Take only what you need at meals
- Dispose of waste properly and recycle when possible
- Conserve water and electricity in your accommodations

Travel Lighter. Leave a Positive Footprint.

TRAVEL WITH PURPOSE

Responsible travel is about more than the environment — it's about people, perspective and growth.

- Be a positive representative of your school, group and community
- Engage with different perspectives
- Be willing to learn and step outside your comfort zone
- Help create meaningful, respectful and lasting connections

See More. Understand More. Leave Better.

A More Connected, More Compassionate World.

Travel gives us an extraordinary opportunity to experience different environments, cultures, communities and ways of life. We believe the best travelers don't simply visit the world. They learn from it, respect it, and help preserve what makes each destination worth discovering.
