

Educational Risk Assessment - Generic

HAZARD	WHO MIGHT BE HARMED? (Degree of risk)	IS THE RISK ADEQUATELY CONTROLLED? (EXISTING CONTROLS)	WHAT FURTHER ACTION IS NECESSARY TO CONTROL THE RISK?
1) Control of children away from home, on a journey, in a different environment.	Children in groups prone to be super active, fun-seeking, can make mistakes in new situations, need to be under reasonable control at all times.	i) Teachers are "in loco parentis" at all times. ii) SST Ambassadors are there to support Teachers and help to maximize success of tour.	Clear statement of "Definition of responsibilities for supervision of party".
2) Travel on aircraft and travel through local & foreign airports. Possible loss of students in airports & security risks.	Teachers, students and other travelers.	Teachers have defined "travel groups" with a maximum of 10 students to ensure all participants make it on/off the aircraft. Pre-arranged meeting times with students & defined areas that the students can visit land and airside. Following recent security breaches. Airport security is at its most vigilant.	All pupils to receive details of their flight should they become separated from the group and a contact number of Trip Leader. Groups are advised of items that can and cannot be carried on aircraft.
3) Coach and minibus accidents involving schools and youth groups. Road traffic accidents are an on-going risk.	Road conditions at any time of year, level of mechanical reliability, human driver error, driver distraction. Other road users.	Contract requires agreement on regular servicing and maintenance, compliance with company's country of registration / driver's regs, background checks, national seat belt laws, tire regulations, coaches equipped for adverse winter weather conditions.	Drivers are assessed STEM Study Tours Ambassadors, Transport Department and school teachers to benefit other schools. Remind teachers of danger in final information.
4) Control of children on board a ferry.	Contact with general public. Danger of impact when departing and docking.	Warning of danger and advice on procedure to school teachers for them to pass on to children.	Full safety briefing is given by airline/ferry once all passengers are on-board.
